Summary

Software Engineering graduate with strong skills in Dart, Java, and Python, and hands-on experience in both mobile and full-stack web development. Proficient in building responsive UIs, integrating RESTful APIs, and delivering scalable cloud-based solutions. Successfully developed a cross-platform social collaboration platform as a graduation project—including both mobile and web versions—to connect universities, volunteers, companies, and NGOs. Passionate about delivering clean, maintainable, and scalable software solutions to real-world problems.

Experience

Flutter/Dart & Web Development

– Led the development of a graduation project: a social media-like platform supporting NGOs, volunteers, universities, and event management.

– Built both mobile and web versions using Flutter and Firebase, ensuring responsive design and real-time updates across platforms.

– Applied Agile Scrum methodology and Extreme Programming (XP) practices including Test-Driven Development (TDD).

– Integrated Firebase Authentication, Firestore, and Notifications, providing a scalable and secure cloud backend.

– Demonstrated strong team leadership, architecture planning, and cross-platform development expertise.

Java Development

– Designed and implemented a database management system for employee records as part of an academic project.

– Built CRUD functionalities to manage employee data efficiently, highlighting problem-solving and system design skills.

Internship at EHS (Electronic Health Solutions) – Hakeem   **Feb 2025 – April 2025**

- Contributed to the ERP department, working on real-world business processes and enterprise solutions.

- Developed a swimming club billing system using Oracle APEX, supporting membership management, payment tracking, and facility operations across multiple clubs.

- Completed the Oracle APEX Professional Course and earned the Oracle APEX Cloud Developer Certified Professional credential, strengthening backend and database development expertise.

Education

Bachelors of Software Engineering -The World Islamic Science and Education University
February 2022 – June 2025

Skills & abilities

- **Programming Languages** : Java, Python, C++
- **Mobile Application Development** : Flutter Dart
- **Networking** : CCNA (Certified from The Hope International Company)
- **Full Stack Development**: HTML, CSS, React , Node.js, JSP
- **Databases** : Oracle , Firebase (Cloud Database)
- **Oracle APEX Professional Course** :
      Earned **Oracle APEX Cloud Developer Certified Professional** credential.
- **AWS Cloud Practitioner Essentials** :
      Earned **AWS Cloud Practitioner Course Certified** with Amazon

Languages

- **Arabic   : Native**
- **English : Professional proficiency (spoken, written)**
